[No. 5491.]

For the prevention and cure of BILIOUS and MALIGNANT FEVERS is recommended.

Hahn's Anti-Bilious Pills

THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir.

A sovereign remedy for colds, obstinate coughs, asthma, sore throats, catarrhs, and approaching consumptions. To persons who have children afflicted with the HOOPING COUGH, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative.

Is recommended as an invaluable medicine for the speedy relief and permanent cure of Nervous Disorders, Violent cramps in the stomach and bowels, Loss of spirits, back Indigestion, Impurity of blood, Melancholy, Hysterical affection, Gout in the stomach, Inward weakness, Pains in the limbs and debility, Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion.

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflammatory redness, scurfs, tetter, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops.

For the cure of agues, remittent and tertian fevers.

At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the manner, importance and respectability of which, fully justify every article of this advertisement.

Pan-sh Making.
METAL PAN-SHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke-street. The want of a Metal Pan-Sal Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking. Gentlemen in the country, by sending the dimensions of their basins, can have them made at the same price as if in town.

Proposals.
FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of

Universal History Americanised;
Or, an historical view of Europe, Asia, Africa and America, from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.

BY DAVID RAMSAY, M. D.
Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence.
Sir William Jones.

PROSPECTUS.
ASTA.

The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the globe after that great event—of the primitive postdiluvian nations, which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.
The African part, contains a concise history of Egypt, Carthage, Nubia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a group-view of its uncivilized settlements.

EUROPE.
The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered; and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.
The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time. The second, of all parts dependant on Europe. And the third, of all that are still owned by the Aborigines.

It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for \$3 1-3 per volume, in sheep binding, or \$4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.
This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the globe. These collectively have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.
The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANBORN SMITH,

which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each year to their success is a matter of deep importance.

FRANKLIN.

One night, cold freezing to his skin,
Stopped on his journey at a public inn;
Rejoiced perceiving the kindling flames a-
fire.
But, lacking sage, perceives with distant
eyes
A blackguard crew monopolize the hearth—
Each, firm as Banquo's ghost, maintains
his seat.
"Ho!" cries the doctor, never at a loss,
"Landlord, a peck of oysters for my
horse."
"Your horse eat oysters?" cries the
wondering host;
"Give him a peck, you'll see they won't
be lost."
The crowd, astonished, rush into the stall;
"A horse eat oysters—what, with shells
and all?"
Meantime our traveller, as the rest retire,
Picks the best seat at the deserted fire;
A place convenient for the cunning elf,
To roast his oysters, and to warm himself.
The host returns!—"your horse won't
eat them, sir!"
"Won't eat good oysters?" he's a simple
cur—
"I know who will," he adds in merry
mood:
"Hand them to me, a horse don't know
what's good."

Mr. Snowden.

I believe it my duty to notice in
a few words Z's remarks on my former
communication, respecting the universal
and impartial gift of God to his creature
man: though at the same time I have not
the least desire to cause him to digress
from his path, or disturb his meditations.
My object is to bring the subject more
fully before the view of your readers,
that they may meditate with us on this
all-important truth, "that the gift of God,
which bringeth salvation, hath appeared
unto all men, teaching of them;" &c.—
that those who are called heathens, as
well as those who are called christians,
are men—consequently participate in this
divine manifestation. Z appears to be
of opinion that he has all proof on the
subject. I am still of a different opinion,
believing the quotation made in my other
communication stands on that immovable
foundation, having the word, the uni-
versal love, the justice and mercy of God
to its support.

I believe with him that the rational fa-
culty of man is all-sufficient to enable
him to choose or refuse, observe and con-
template, and in the works of creation
behold more than a wonderful plan and
execution—that is, he may see the works
of this outward world, but not the work-
er: therefore, I am far from undervalu-
ing that gift of the creator to his creature
—for it is my opinion, if through this gift
man would seek for the giver, he would
find a manifestation of him in himself;—
he would find a spark or ray of that light
which enlightens every man that cometh
into the world—and which would
if followed draw all unto itself.

This is what I have in view, and at this
time the only motive I have in writing is,
to invite a search to be made in every
mind for this heavenly guide; for it is
the only conductor and safe conveyer to
that haven of rest. It is my opinion,
our christian profession will be of no avail,
except we are in possession—for, as
saith the apostle, "except ye are of the
spirit of Christ, ye are none of his." As
we believe that Christ was actuated by
the spirit of the Father, so surely must
we be actuated by the same; and if we
are actuated by the spirit of Christ, then
are we Christians indeed, let us be of
whatever nation, kindred, tongue or peo-
ple. I believe this is no novel hypothesis
—neither is there heresy nor poison in
this view of the subject: it is surely as
old as the time of Paul, who preached it
to the thessalonians—or as Peter, who wit-
nessed the same on Cornelius and his
friends: but I believe it is too much kept
out of view by the cares of the world, the
deceitfulness of riches, &c.

It is our main business in this world to
secure an interest in the next.

ALEXANDRIA: FRIDAY, APRIL 3, 1818.

FROM OUR CORRESPONDENT AT WASH-
INGTON.

Thursday, April 2.

Yesterday the committee on naval af-
fairs made a long report on the resolu-
tions which some time ago were referred
to its consideration, at the instance of
Mr. Johnson of Virginia, respecting the
courts martial on captain Perry and cap-
tain Heath. The opinion of the commit-
tee was, that the deficiency complained
of by those resolutions were altogether
in the administration of the law, and not
in the law itself. Mr. Johnson insisted
that if the officers to whom the execution
of the law was confided had been defi-
cient in the performance of their duty,
the matter ought to be brought before the
house, and followed up his observation
with a resolution instructing the same
committee to report a bill to deprive of
his commission any officer who should
strike his inferior officer. After some
remarks by Mr. Pleasants, the report and
Mr. Johnson's resolution were ordered to
lie on the table.

The bill fixing the first Monday in
November next for the next meeting of
congress was passed, after several at-
tempts to defeat it, by 87 to 42.

A resolution bestowing upon colonel
Richard M. Johnson a sword for his sig-
nally gallant conduct in the battle on the
Thames, in Upper Canada, on the 5th of
October, 1813, was read twice, and passed
unanimously. And certainly never
was a resolution passed by congress that
will carry with it the more unanimous
assent of the American people. This
resolution led to the introduction into
discussion of two names, possessing
strong claims on public gratitude and the
notice of congress—one, major general
Carroll, of Tennessee, to whom the union
is indebted for the organization of the
force which repaired from that state to
New-Orleans, and helped to save that
city—the other, general Coffee, whose
name is too celebrated to require our
particularizing him in this place. They
will be made the subjects of other resolu-
tions—perhaps this morning.

From the National Intelligencer.

More than 1300 Creek Warriors have
been mustered into the service of the U.
States, and are actually employed in the
expedition against the hostile Seminole
Indians. They are commanded by the
distinguished chief colonel McIntosh, and
are organized into nineteen companies.
The companies are commanded by cap-
tains Ockfuske, Yohalough, Nehalocko,
Hapoe, Hopoe Haujo, Tamyahtee, Wm.
Miller, Mad Wolf, Tuskegie Hango,
Hopaye, Wm. Lasley, Samuel Hawkins,
Tustunnuggee, Rory McIntosh, Hagey,
Othiemattee Tustunnuggee, Olahtau, Co-
ssoche Tustunnuggee, Wahneege, Cohu-
see Emathlau, and Lt. Latigee.

INDIAN HOSTILITIES.

From our correspondent at St. Mary's,
dated 17th March.

The Indians are at present very trou-
blesome on the frontiers of Wayne and
this county. An unfortunate man, by the
name of Johns, was on Friday last
butchered by a party of them, supposed
to consist of a hundred, about 16 miles
from Camden, of Jefferson county house.
Such is the state of alarm in this coun-
ty, on account of these savage invaders,
who in their warfare spare neither woman
nor helpless infant, that people are con-
stantly moving from the frontiers into
the centre of the county; and unless the
depredations of the savages are soon put
a stop to, more than one half of Camden
county will be deserted.

The militia is to be generally ordered
out; but their number in this vicinity is
too small to effect any thing of impor-
tance; though they are good men, and
proved themselves so during the late war
with England. Our only prospect of per-
manent relief, is from the exertions of
Gen. Jackson, who has taken the com-
mand in the Indian nation, and who no
doubt will chastise these belligerent se-
verely, before he bories the hatchet with
them again. Such a thing will teach them
their imbecility and weakness in taking
up arms against the United States; and
nothing else will give us a permanent
peace with these savages. And when
they are once satisfied with the vanity of
their exertions, they no doubt will be as
peaceable as their brethren in the New-

England and middle states; and instead
of appealing to arms when they are in-
jured, they will appeal to the laws of the
country.

On account of this alarming state of
affairs, there will be no court in this coun-
ty this term, the grand jury having peti-
tioned Judge Berrien that none may be
holliden, which petition has been grant-
ed.

FROM THE ARMY.

We have received intelligence from
Fort Early as late as the 10th instant in
corroboration of the accounts from Mil-
ledgeville. On the 11th instant the ar-
my was expected to march for Fort
Scott, at which place it would arrive in 4
days, if no intervening object checked its
progress. The vicinity of our troops to
the savages will soon bring on an engage-
ment, unless they change their position
and divide their forces into more nume-
rous parties. In this event, which we
fear, the campaign must be protracted
until the enemy is cut up in detail.

PORTUGAL AND ALGERIES.
A passenger in the brig Four Sisters,
24 days from St. Michaels, informs us that
a vessel arrived there on the 5th instant,
in a short passage from Lisbon, and bro't
intelligence of the capture of a Portu-
guese frigate by the Algerines, on the
10th February, near Gibraltar. It was
said the Portuguese government had de-
clared war against Algiers immediately
on hearing of this event.

We also learn that a Dutch ship from
Holland, with 200 passengers, is ostensibly
bound to the United States, touched at
St. Michaels in November last, where un-
der some pretence she landed and left
her passengers wholly destitute, and
without any means of removing them-
selves.

From the Gazette, same date.

FROM ANTWERP.

Letters by the Sachem, of the 6th of
February, from the first house of state, that
coffee was daily rising, and it was uncer-
tain to what prices they would go, as the
supply was very short. Sugars were like-
ly to continue at the last fall prices. Rice
was 26 guilders, but falling. Potatoes not
higher than last quotations. Spices have
risen about 10 per cent. Tobacco was
doing well; Kentucky invoiced at 10cts
was sold so as to give 20 per cent profit
to the shipper. Cotton 38 to 43 for up-
lands, and would probably maintain these
prices.

Another attempt to rob the Mail, was
made on last Thursday night, seven miles
from Newbury, Mass. A pole was thrown
across the road, and a fellow seized the
reins; but the driver applied the whip,
and the horses sprang and got clear. [ib

LATEST FROM ENGLAND.

By the arrival at this port of the fast
sailing ship Factor, captain James Hamil-
ton, in 40 days from Liverpool, the edi-
tors of the Freeman's Journal have re-
ceived London papers to the 12th, and a
Liverpool paper of the 14th Feb. We
have extracted the most interesting arti-
cles for this day's paper.

The papers are principally filled with
details of parliamentary proceedings.
On the 11th February gold rose 18d
per ounce, and was at 41 5s 6d.
Corn Exchange, Feb. 11.—We have
had but few arrivals of any grain since
Monday, and what little fine wheat ap-
peared this morning was taken off at
Monday's prices. Fine malting barley
sold also on as good terms as Monday,
but the inferior sorts are nearly unsale-
able, of which a tolerable large quantity
remains on hand. In peas, beans and
oats, no alteration.

It appears from the average returns
made from the 12 maritime counties of
England, that the price of grain for the 6
weeks preceding the 15th February, inst.,
will be above the rate for restricting im-
portations, and consequently that the
ports will be open for the reception of
foreign corn during the next quarter.—
The last average of wheat quoted in the
London Gazette, which is up to the 31st
of January, is 83s 11d, being 8s 11d a-
bove the minimum.

Price of corn and flour at Liverpool,
Feb. 10.—American wheat, per 70 lb. 14
s 15s; flour, per bbl. 58 s 60s; sour 40
4s.

London, Feb. 6.

Paris papers to the 3d instant have
been received. One of their foreign ar-
ticles is highly interesting to British feel-

ing, but we are glad to perceive that the
relation in question ends with an ex-
pression of doubt as to the accuracy of
the horrible circumstances stated. It is
the detail of more outrages at Algiers,
contained in a letter from Genoa, of the
15th of January, purporting to be related
by the vice consul from the Sardinian
court to Algiers, who had fled from the
scene of horror. It is stated that the
vice consul of Sardinia at Algiers had ar-
rived at Genoa, who relates the following
facts: A Sardinian brig had been cap-
tured and carried into Algiers, under the
pretence that her papers were not regu-
lar. The vice consul protested against
the capture, and proceeded to the palace
of the dey, with his colleagues, the other
consuls. They received their sword
in hand surrounded by his guards. The
English consul presented himself at the
same time, to complain of acts of vio-
lence which had been committed upon
his son and his two nieces. They had
been stopped in the street—the young
man had been thrown into a dungeon,
and the two ladies had been conveyed to
the seraglio of the dey, where Turkish
dresses had been given to them. The
dey, in a fury, ordered his captain of the
guards to bring in the young Englishman,
whose head was cut off in the presence of
his father. The bleeding head was ex-
posed at the gate of the palace, and the
English consul withdrew trembling. The
Sardinian vice consul received no other
answer to his representation than an or-
der immediately to quit Algiers, and they
took from him his daughter by force.

We have some difficulty in giving cre-
dit to this horrible statement, as the let-
ter says, in conclusion, this article has
probably been copied from an Italian
journal. Its contents being happily au-
thenticated, we shall say nothing of the
duty they would obviously impose
upon England if they should be found to
be true. We shall merely say, that it
shall be deemed necessary to send an-
other expedition against Algiers, we hope
and trust it will be better managed in its
result than the last.

February 7.

The details of the horrible atrocities
stated in the French papers, on the au-
thority of letters from Genoa, we are
glad to find are not confirmed by the ac-
counts in the Dutch and Hamburg mails,
which have subsequently been received.
The Hamburg mail, however, repeats a
part of the dreadful intelligence. Ac-
cording to the information thus derived,
the murder of the British vice consul's
son was not perpetrated, but threatened.
The former accounts from Algiers al-
lowed the forcible consignment of the
British vice consul's daughters to the ha-
rem of the reigning despot, and the mur-
der of his son before his eyes by the same
barbarous authority, and in the presence
of the assembled ministers of the Eu-
ropean powers. The Hamburg papers
mention only the niece of the Sardinian
consul as being so insulted. Thus, how-
ever, from various sources of intelligence,
we learn that a great outrage has been
committed; but as truths of a painful
nature are seldom lessened in the repeti-
tion, we may conclude that the latter ac-
count is the only one which should be
fully credited. Of the insufficiency of
treaties with such chiefs as those of
Morish Africa, to restrain their people
from the barbarities which have become
habitual with them, this affair is another
proof. When will the jarring and jeal-
ous ambition of the European powers al-
low them to take the only proper mode
of establishing a civilized power on the
coasts of Moorish Africa? It is stated
in these papers on the authority of let-
ters from Constantinople, that the deys
of Tunis and Algiers have concluded a
treaty of peace under the guarantee of
the grand seignior, and at the same time,
in conjunction with the dey of Tripoli,
have entered into an offensive and defen-
sive alliance with the emperor of Moroc-
co. If this intelligence be true, it will,
in some degree, account for the arrogance
of the present dey of Algiers. The king
of Sardinia is stated to have issued or-
ders, in consequence of the above out-
rage, to fit out a squadron for the pur-
pose of demanding satisfaction.

The congress of sovereigns, it is now
said, is to be held at Aix la Chapelle.
By the articles from Sweden, we find
that prince Oscar, the son of Bernadotte,
is authorised to exercise the powers of
sovereignty in Sweden whenever the
king and his father shall be both ill, or
both absent. The anticipation of such
events, not mentioned as likely at pre-
sent, was probably meant only to call out
an indirect confirmation and acknowl-
edgment which could not be directly
required, without implying some doubt
as to their original sufficiency.

Prince Frederick Joseph Louis, of
Hesse Hombourg, is in his 49th year,
being born in July, 1767. He commanded
the Austrian hussars with distinguished
gallantry; and we learn from officers
that served with him that he is an officer
of great military merit. His union with
our amiable princess Elizabeth is fine—
his serene highness will be introduced at
the prince's levees on Thursday next.
The marriage will take place at Easter.
The princess Elizabeth will have a mar-
riage portion of 40,000, and her annual
income is 15,000. Her intended con-
sort is hereditary prince, and the reig-
ning duke is in his 71st year.

Frankfort, January 29.

Under this date is an article from Ge-
noa, dated the 10th of January, contain-
ing an account of the arrival of the Sar-
dinian vice consul from Algiers, as al-
ready published in the French papers,
and from them translated into the En-
glish. The commencement is exactly the
same, but the conclusion is as follows:—
"The Dey received them surrounded by
his guard, and with his sabre in his hand;
but he fell into such a rage that he threat-
ened the English consul to have his son's
head cut off, and to have it fixed up at
the door of the hall of audience, if they
troubled him any further. At the request
of the terrified father, all the consuls de-
serted for the moment. The next day the
Sardinian vice consul was ordered to leave
Algiers."

This account, therefore, differs from
the other in not mentioning the seizure
of the vice consul's daughter, nor the
clothing of the British consul's nieces in
a Turkish dress; but it states that they
were seized in the streets, and put in the
harem.

arrived since our last, but their contents
are unimportant. After repeating the
former statement of the negotiations be-
tween Spain and the U. States having
ended without any satisfactory result,
some of them indulge in a variety of
speculations relative to British interference,
of which we are far from being so ap-
prehensive as the Americans appear to be.
Windsor Castle, Feb. 7.

His majesty has continued through-
out the last month in a very tranquil and
comfortable state. His majesty's bodily
health is good, but his disorder is un-
diminished.
London, Feb. 11.

Paris papers to the date of Sunday last
have arrived, bringing the welcome infor-
mation, that the tedious discussions of
the law of recruiting had at length en-
ded. The law was passed in the chamber
of deputies on the 8th, by a majority of
147 to 92. It had formed the chief busi-
ness of 21 sittings. The journals of Sat-
urday, have a curious article, stating
that the legislative body of Frankfurt are
occupied upon a law, the object of which
is to render that city in future an asylum
for all persons pursued on account of
their political opinions, provided those
opinions shall not have led them to the
commission of crimes.

Great activity prevails at Cadiz, in e-
quipping the South American expedition.
It is said that three ships of the line and
two frigates of 40 guns each, are ready to
take troops on board.

Intelligence from the Ionian Isles,
states, that the long pending negotiations
with the Pacha of Janina, were drawing
to a conclusion. His highness expresses
his willingness to enter into the proposed
arrangements, provided Paga be ceded
to him agreeably to a solemn promise to
that effect.

Letters from Austria, state that the
Prince of Peace is shortly expected
in that quarter from Italy, and wherein
he will be constrained to reside the re-
mainder of his life. The court of Madrid
is said to be well pleased with this ar-
rangement.

The postponement of the Queen's
Drawing-room, a morning paper says, is
occasioned by the state of her majesty's
health, which has been very indifferent
during the last three weeks of a month,
although she takes her accustomed exer-
cise.

Liverpool, Feb. 14.

Accounts were received here yesterday
of most alarming disturbances which had
taken place at Kendal, from the fury
with which the spirit of election now ra-
ges in the county of Westmoreland. A
large party of gentlemen in the Lowther
interest, having entered the town on the
day before this account was sent off, they
were met by the friends of Mr. Brong-
ham, and a riot ensued, in which several
gentlemen's carriages and amongst the
rest Mr. Bolton's were broken to pieces.
Two persons were also said to have been
killed. In consequence of these proceed-
ings an express has been dispatched for
Mr. Raincock, barrister at law, of this
town, by the directions of Mr. Bolton.—
Such is the conduct which we received
yesterday, but we hope it will prove to
be much exaggerated.

A very active canvass has been set on
foot in many of the boroughs, and some
of the counties, both in England and
Scotland; from which it is conjectured
that a general election will take place
early in the spring. A great deal has
been said on the subject in this place, but
very little, we believe, has hitherto been
done. Four different candidates have
been generally named, and in the opinion
of many persons, no less than five are
likely to offer themselves.

On Tuesday last, the hon. Mr. Ben-
nett presented a petition stated to be
from certain persons in Liverpool, and
praying for a reform in the common
house of parliament. It was ordered to
lie on the table.

We are informed that it is in con-
templation to call a general meeting of the
inhabitants of this place, to consider the
propriety of petitioning parliament to re-
fuse the bill of indemnity which is usu-
ally passed after a suspension of the habeas
corpus act.

Fresh Creek Boarding School.
The following is published for the information of Parents:
HAVING long believed that a School on a plan different from most others in many respects, would be beneficial to society, and apprehending that with all its cares, and the responsibility inseparable from such a concern, I could more cheerfully devote my time to the education of children than to any other business, I have concluded to establish a BOARDING SCHOOL FOR GIRLS.—With this view I have purchased the FARMER CRICK FARM, four miles east of the yellow springs, on the Norristown and Philadelphia road, situated in Pikesland and Vincent townships, Chester county, twenty-seven miles from Philadelphia, combining many conveniences for the support of such an institution; and having let the farm, etc. in a way calculated to supply the family with provisions, I propose to devote my attention, with the aid of suitable assistants, to the education of the children who may be placed under my care.

In selecting the pupils, it is not proposed to be governed entirely by their ages, nor to require that they shall all be members of the religious society of Friends; but as the school rules will be very few in number and very simple, it is my wish that none may be sent contrary to their own inclination, nor any one who would not be likely to be good examples to the other scholars, and treat them with kindness and affection.

The price for board and tuition will be two hundred Dollars per annum, one quarter always to be paid in advance—no restrictions respecting the kind of clothing are intended, nor respecting the frequency of the changes that parents may require; the washing will be charged at the ordinary price per dozen—children may be admitted for one quarter only, and such as are entered for a longer period, may nevertheless be removed at the expiration of any quarter.

The communication with Philadelphia will be frequent and easy by stage, and a house of entertainment kept by the farmer for the accommodation of persons having business at the school.

Readings, Writing, Arithmetic, English Grammar, Geography and the use of Maps and globes, will be taught, together with such other branches as the progress of the children and experience may render expedient. The school to open the first of the 5th month next. For further information apply to Edward Sturges, Alexandria, or to

THIS Estate, situated in the county of Fairfax, twenty two miles from Alexandria, and the same distance from Georgetown, contains about seven hundred and fifty acres. Little River Turnpike passes through it half a mile from the dwelling house. The situation is handsome, and remarkably healthy; the water is good and abundant. The field presents a good surface for cultivation, and those now unfilled are covered with red clover. The orchards are very large and thrifty; the collection of table fruit is choice and various. The mansion is spacious and well constructed; the out-houses are conveniently situated, and the whole have been lately thoroughly repaired and painted. James Kennedy & Son;
RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE,** No. 45, Maiden lane, New-York, a fresh supply of the following valuable MEDICINES:
Hamilton's Worm Destroying Lozenges.
Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.
This medicine bears no analogy whatever to others of similar title so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent and is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is low or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humors and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.
Description of Worms, and the symptoms by which they are known.
Worms which infest the human body are chiefly of four kinds viz.—The Terebra or large round worm; the Ascariæ or small raw-worm; the Cucubitus or short flat white worm; and lastly, the Tenia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance, and sometimes the face bloated and flushed.
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.
The Restorative Powder for the Teeth and Gums.

The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.
Hamilton's Grand Restorative.
Is recommended as an invaluable medicine for the speedy relief and permanent cure of
Nervous Disorders, Violent cramps in Consumptions, the stomach and Lowness of spirits, back Indigestion Loss of appetite, Melancholy Impurity of blood, Hysterical affections, Gout in the stomach, Lungs & weakness, Pains in the limbs and debility, Relaxations, etc.

HAHN'S ANTI-BILIOUS PILLS
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.
The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.
Facts of this conclusive nature speak more in favour of a medicine than copious of pompous eulogy founded on mere assertion.
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds, which we often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance; they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
